TABLE OF CONTENTS

Volume 191

ARTICLES

ALI, AHSAN and P. K. BHATIA / Instability of a Gravitating Partially-Ionized Plasma 89

ASSAD, M. J. D. and C. ROMERO / Eternal and Pulsating Universes in Einstein-Cartan Space-Time 289

BASU, D. / Absorption Features of QSOs 43

BEISSER, KLAUS and HORST DRECHSEL / Dust Tail Streamers of a Comet with Rotating Nucleus 1

BISNOVATYI-KOGAN, G. S. and M. DEMIAŃSKI / Distortion of the Spectrum of the Microwave Background Radiation in an Anisotropic Universe 259

CUBARSÍ, RAFAEL / The Local Velocity Distribution from a Stellar System with Two Gaussian Components 213

EL-LABANY, S. K. / Nonlinear Ion-Acoustic Solitions in a Warm Plasma with Adiabatic Positive and Negative Ions and Hot Non-Isothermal Electrons 185

GRABÍNSKA, T. / Relativity and Space-Time Measurements 23

JHA, BASANT KUMAR / Unsteady Mixed Convection Flow with Thermal Diffusion Effect 283

LEKAS, TH. I. and G. A. GEORGANTOPOULOS / Influence of Viscous Dissipation on a Hydromagnetic Field 299

NAKAMURA, YASUHISA and MASATOSHI KITAMURA / The Gravity-Darkening of Highly Distorted Stars in Close Binary Systems. VIII. Practical Analysis of Primary Components Filling the Critical Roche Lobe in Semi-Detached Systems of Reverse Algol-Type 267

NANOUSIS, N. / Thermal-Diffusion Effects on MHD Free-Convective and Mass-Transfer Flow Past a Moving Infinite Vertical Plate in a Rotating Fluid 313

PAPADAKIS, K. E. and V. V. MARKELLOS / On Basic Families of Three-Dimensional Periodic Orbits of Three Massive Bodies and Their Stability 223

PAÁL, G., I. HORVÁTH, and B. LUKÁCS / Inflation and Compactification from Galaxy Redshifts? 107

RADWAN, AHMED E. / A Note on MHD Instability of a Compressible Gravitational Streaming Fluid Cylinder 307

RESHETNIKOV, V. P. / Companions' Influence on the Emission-Line Rotation Curves of Galaxies 49

SAMOKHIN, M. V. / The Origin of the Global System of Field-Aligned Currents on the Dayside of the Magnetosphere 195

BALACHANDRA SWAMY, A. C. / Equatorial Electrojet Parameters and the Relevance of Electromagnetic Drifts (EMD) over Thumba 203

SATTAR, M. A. / Free and Forced Convection Flow through a Porous Medium near the Leading Edge 323
SINGH, R. N. / Acoustic Wave Ducting along Magnetic Flux Tubes in the Sunspot Regions 125
SINGH, T. and ANIL K. AGRAWAL / Bianchi Type-II, VIII, and IX in Certain New Theories of Gravitation 61
SOKOLOV, VLADIMIR V. / Linear and Nonlinear Gravidynamics: Static Field of a Collapsar 231
STEWART, P. / Resonant Tidal Interactions 175
SUBRAHMANYAM, P. V. / Dependence of Tidal Effects on the Mass Distribution in Binary Stellar Systems 137
TAKHAR, H. S., P. C. RAM, and S. S. SINGH / Hall Effects of Heat and Mass Transfer Flow with Variable Suction and Heat Generation 101
TOKIS, J. N. / On the Numerical Simulators of Stability in Astrophysical Problems 131

LETTERS TO THE EDITOR

GAUR, V. P., M. C. PANDE, and SURESH CHANDRA / Equilibrium Constants of the Molecular ION H_3^+ 147
GUZMÁN, ENRIQUE / Isotropization in Brans-Dicke-Bianchi Type-V 157
ROY, A. R. and PIJUSH K. MAITI / Viscous Fluid Cosmological Models in the Presence of the Zero-Mass Scalar Field 161
SKALSKÝ, VLADIMÍR and MIROSLAV SÚKENÍK / A Hypothetical End of Creative-Expansive Evolution Phase of the Expansive Non-Decelerative Universe 333
SKALSKÝ, VLADIMÍR and MIROSLAV SÚKENÍK / Gravity in the Expansive Nondecelerative Universe 329
TSINTSADZE, L. N. / Sound Waves in an Electron-Positron Plasma 151

The Use of the "SPACEKAP" Style File for Delivering Manuscripts in LaTeX 167, 343
List of Forthcoming Papers 173, 347
